

No Mystery in Meat

Some things are so simple that they have to be explained again and again. When things are obvious, people keep looking for mysteries behind them.

So it is with the packing business. The mere size of Swift & Company confuses many. Because their imaginations are not geared up to scale, they believe there must be magic in it somewhere-some weird power.

Swift & Company is just like any other manufacturing business, run by human beings like yourself, it takes in raw material on the one hand and turns out a finished product on the other.

Swift & Company keeps down the "spread", or the expense absorbed between raw and finished material, to as low a figure as possible. (If it didn't it would be put out of business by others who do.)

How much Swift & Company pays for the raw material, and how much it gets for the finished product, depends upon conditions which Swift & Company does not control.

It depends entirely upon how much people want the finished product, and how much raw material there is available to make it from.

The profits of Swift & Company amount to less than one cent per pound on all meats and by-products, -less than one-fourth of a cent on beef.

Swift & Company U. S. A.

Memphis Local Branch, 31-37 Union Avenue J. H. McPherson, Manager

Buy the Best ON TERMINAL BUY

The old saying, "It pays to buy the best," applies more strongly to your dental work than any other one thing. On your dental work depends your appearance, your comfort and your health.

Winfrey Quality Dentistry

Is the best to be had. It is the product of 27 years' experience and goes out under an absolute guarantee. It must be correct in every way. My prices are the lowest that can be made on the best work.

COMMISSIONERS PAT

The city commissioners declared they will go right along arranging to take over the properties of the River and Rail Storage company for municipal wharfage purposes, notwithstanding the protest made by members of the Cham-ber of Commerce committee Saturday afternose.

statement he had given the newspapers Saturday.

Miller explained that the ratiroads are not now congested and probably will be able to handle the traffic of the country; that the government had already ranceled, for that reason, construction of a certain number of barges for river traffic, and that, even if river traffic under government supervision proved a success, the city would still have \$275,000 left of the \$500,000 hond issue to add to the terminals later if required. He further argued that the city could build more adequate terminals several years before with \$375,000 than they could now build with \$500,000 because of present high cost of building material caused by the war and shortage of man power.

RAISE IN FARES MUST AWAIT REFERENDUM

I am pledged not to grant the Memphis Street Railway company an increase in fares until the people of Memphis vote on the proposition, declared Mayor Monteverde Monday following a visit made to him by Charlesd M. Bryan, attorney for the street railway company, and T. H. Tutwiler, president.

From this statement it appears there will be no scent fare unless it is granted by the people of Memphis by a referendum vote.

The mayor said the street railway company has an ordinance prepared for a 6-cent fare, but that the commission would not take cognizance of it until the company inserted a clause calling for a referendum vote. That is nocessary by law. Under the city charier a referendum vote cannot be taken until the ordinance is passed on first reading. Then the referendum election may be called on petition and held before the passage of the ordinance passed it is

final reading.

To get the ordinance passed it is therefore necessary for the street rall-way company to insert this clause in the ordinance they have.

Messrs Hyan and Tutwiler were to have another conference with the mayor Monday afternoon

SUBURBAN STORES OPENS 8 A.M. TO 8 P.M.

Suburbanites will have opportunity of buying groceries and shoes, dry goods and household articles 12 hours daily unless C t Gibert, in charge of the opening and closing feature of orders of the food and fuel administration and the State Council of Defense, interferes and the State County of Persons, to terferes.
The Suburban Reinlers' association, a branch of the Memphis Relaliers' association, has voted to open suburban stores at 8 a.m. and to close them at

and will continue indefinitely unless the REGISTRARS MUST REPORT

ALL,BOARD Saves Coal -Adds Comfort

T IS always wasteful and expensive -this year it may be unpatriotic and very uncomfortable-to allow heat to escape through an unsealed attic.

Carey Wallboard is a poor conductor, a good insulator. Applied to your unfinished room, it forms a dead air space inside the sheathing, makes your house warmer, and helps to save your coal

One carpenter can seal your walls in far less time, with far less muss at far less expense than a gang of plasterers could do it.

The Carey Wallboard does not warp. It cannot crack or chip. It requires no drying out, no wallpaper. Its perfectly smooth surface can of course be papered or tinted if desired.

Let Carey Wallboard save coal for you and turn waste space into a useful room.

Write or phone us for an estimate

YANKS FINDING FATAL MINES LEFT BY ENEMY

WITH THE AMERICAN ARMY WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 29, (By the Associated Press)—The American troops are still finding mines and hidden explosives in Chatel Chehery. The latest trap of this kind was an innocent appearing walking stick, suspended at the entrance of a dugout, as if it had been left by its hurriedly departing owner. Investigation showed that a fine wire ran from the cane to a point in some nearby rocks where it was connected with a 25-pound charge of high explosive.
